modern home

Curtain Poles

- Available in 28mm, 20mm and 13mm curtain pole diameters
- Available in popular pole lengths: 120cm, 180cm, 240cm and 300cm
- A 500cm long contract pole is available as an accessory
- 300cm Jetran packed pole is a split length. All others are single pieces
- Poles made from genuine stainless steel (except black)
- Stainless Steel Rings are nylon lined for smooth, silent running
- Complete pole sets include: curtain pole, standard new open cup brackets, finials, rings and instructions
- Some pole sets available as a complete pole set in a single clear acetate retail Jetran pack. All available as a kit of components. See product code against each product for packaging options and availability
- Decorative Rectangle brackets available as alternative option in kits and as accessories

How to choose your Hasta Curtain Pole

Step 1	Choose the diameter of pole 28cm, 20cm or 13cm
Step 2	Choose the finial style – the first 5 digits of the catalogue number are the finial code
Step 3	Choose the length of pole and substitute "Size" shown in the catalogue number with the appropriate length; 120, 180, 240, 300
Step 4	Choose the packaging format either retail packaging in single Jetran with standard bracket (J at the end of the catalogue number), components with standard bracket (K) or components with rectangle bracket (R)
Step 5	Find price band (A to D) and see price list

Welcome

Hasta is a design led window fashion company based in Sweden.

How it Started!

It was 1982 when, Stefan Schörling, President of Hasta, bought the old country blacksmith in his home village Hasta at auction.

What started as a hobby quickly turned into a business, and since then Hasta has successfully grown in to a stable and important player on the European market.

Hasta Today!

Hasta is a private company with its head office in Köping, Sweden and a global production network.

More than 40 percent of the products are sold on the export market, and we keep close control so that our production always matches the demands of Swedish quality and timely delivery.

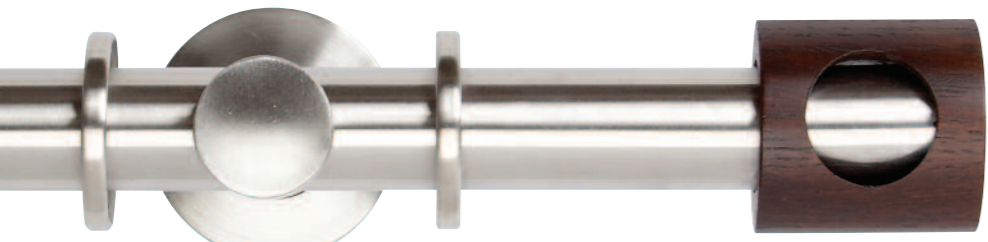

Our strategy was, and remains:

- To create new trends with the best technical foundation.
- To offer a base assortment of products and competitive concepts.

POLES

Hasta Stainless steel poles are genuine stainless steel and have a sleek engineered appearance giving a minimal contemporary look.

STANDARD BRACKETS

The standard bracket is available as a point double bracket as an accessory, giving the option of a double pole system. There is also a decorative Rectangle bracket, in single and double, for the 20mm and 28mm diameters in Stainless Steel. Can also be ceiling fixed.

RINGS

Stainless Steel rings have a nylon insert to reduce friction and allow for smooth running.
