

A unique range of handcrafted poles and tiebacks

museum
COLLECTION

The Museum Collection

A unique range of classic handcrafted wooden curtain poles and tiebacks.

Designed with quality in mind this collection offers a wide choice of finishes, ranging from highly polished woods to classic gilding and distressed paint techniques.

The manufacturing processes we use are based on traditional methods originally belonging to high end European and traditional English furniture production. These classic finishes have been updated to incorporate modern waxes and polishes giving a hard wearing protective finish ideal for todays lifestyle. Each pole and decorative finial is finely finished by experienced craftsmen and produced from the finest woods. This classic range is gilded with real Dutch Metal Leaf or Aluminium leaf to give an authentic antique finish. Colouring and distressed paint effects are used in an imaginative and creative way bringing a truly stunning highlight to your room.

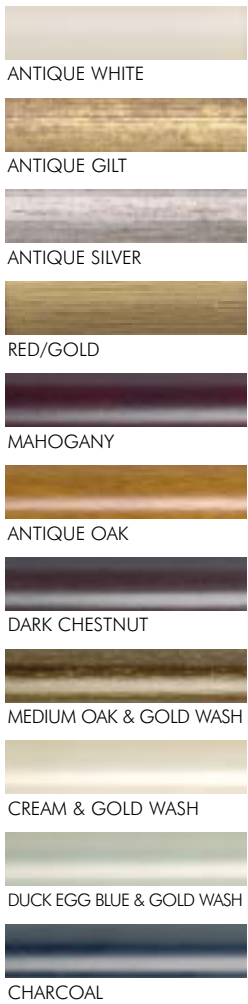

Or you can choose a traditional polished wood finish, designed to match the most popular furniture colours. The finials are elegant and classical in design and will compliment any sophisticated decor scheme.

The Museum collection is handcrafted by skilled craftsmen making them truly unique!

Each pole is complimented by a choice of finials and matching holdbacks.
