19mm Accessories

New 28mm Eyelet Pole

Eyelet Pole Pack supplied with poles, finials, adjustable cup bracket (and without rings).
The bracket extends to allow greater distance from the wall to allow the wave effect of curtains when using eyelets.
The poles are also suitable for tab top curtains

128mm to 155mm fully extended
28mm Poles come with adjustable Cup Brackets

Available in two colours - Stainless Steel Effect and Spun Brass Effect and 4 sizes, with Bullet or Ball Finials.
300cm pole comes in two parts that are joined together with a connector (supplied in the pack).

28mm Accessories

The complete pack includes everything you need to install your curtain pole, including brackets and rings. The 240cm and 300cm poles come in two parts that join together with a connector supplied. If you have bay windows, there is a flexible joint available as an accessory, which will allow the pole to fit around corners. Additional brackets are required to support the pole at the joint.
