Grandeur

The curtain pole collections in the Rufflette range are high quality products designed and sold exclusively under the Rufflette brand.

Kudos 35 square wood pole range is cutting edge in appearance with ultra-stylish square profile, it will enhance any window in a contemporary home.

Eco Chic's unique flat 50mm wide pole profile and stylish finials are made from bamboo – a highly sustainable source of extremely hardwearing material that have been enhanced with satin nickel finish fittings. Chic in appearance, there is nothing old fashioned about this curtain system.

Visions steel curtain pole ranges in 19mm, 28mm and 35mm have been designed to cater for modern window dressings and interiors. The finials are contemporary designs made from a mixture of materials.

Grandeur poles are made from wood from an FSC certified sustainable source and have a range of classical finial designs to create a mix and match option. The finials are made from either resin or wood dependant on the design.

All products have been designed to Rufflette's exacting standards using premium materials.

Each of the products can be made to the precise size required and there is always the option to mix and match products within each collection to suit your requirements.

KUDOS 35 MANHATTAN FINIAL IN WHITE
GLOSS WITH FARAH SILVER FABRIC

“CUTTING EDGE,
ULTRA-STYLISH &
CONTEMPORARY”

KUDOS 35

Kudos 35 square wood pole has been designed and is sold exclusively under the Rufflette brand. Cutting edge in appearance with an ultra-stylish square profile it will enhance any window in a contemporary home.

There is nothing matter of fact about the product, the poles can be purchased in the stock sizes available or for a small surcharge can be cut to the precise length required, and you can create a mix and match look if you prefer to create your own contemporary statement at the window.

Features of Kudos 35

- Available in component form or as a cut to size product
- Made from beech wood - an FSC certified wood
- 4 lengths of pole (1.2/1.5/1.8 and 2.1m)
- 3 colours of pole
- Cleverly engineered brackets that enable you to fit the bracket front to the pole then fix into position on the fixing plate
- Specially developed square ring with plastic insets to stop wear on the pole surface and give smooth, almost silent running action
- Concise selection of modern finials to choose from
- Option to mix and match colours to suit your tastes
- Great if, you prefer a modern look and have light to medium weight curtains
- Stylish point of sale counter top or wall fix display available to order
- 14 day turn round from receipt of order
- Suitable for non-connected straight runs up to 2.1m (or 4.2m when joined using a middle connector bracket)
- Overlap arm available to prevent any gaps appearing where curtains meet in the centre
- Additional packs of rings available for a surcharge
- End ring stop is attached to each finial to prevent the ring from travelling onto finial

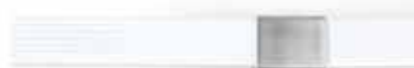

KUDOS 35

All finials measure 195x35x35mm.

colour: satin nickel
material: steel
code: 3022326
sold as piece

RINGS

colour: satin nickel
material: steel
code: 3022273
sold as pk of 6

Important note:

Before ordering Kudos 35, please ensure you have at least 50cm clearance each side of the window recess to allow for installation and good visual appearance. Due to the connector bracket width (5cm) and length of the finials (19.5cm), we recommend positioning the bracket centres 15cm to the left /right hand side of the window recess and a minimum of 10cm up from the window recess. This allows a suitable curtain position and overlap to prevent light penetrating the room at the top and edges of the curtains*

To calculate the correct pole length, please measure the window width and add 30cm to this figure. (15cm per side)

(NB: in both instances, the finial and pole go inside the connector bracket by a distance of 2.5cm). The end ring sits to the outside of the bracket – the distance to the next ring is 55mm.

* An overlap arm ensures that the curtains overlap in the centre when drawn

KUDOS 35 ASTORIA IN BLACK GLOSS AND POLE SHOWN WITH VIBE BLACK & NATURAL FABRIC

Custom pole cutting available for a surcharge (see pricelist for details)
All finial pairs include an end ring stop

“CHIC IN APPEARANCE
AND MADE FROM
ECOLOGICALLY SOUND
MATERIAL”

eco chic

pole collection from **Rufflette**

Eco Chic's unique, flat, 50mm wide pole profile is fully made from bamboo – a highly sustainable source of extremely hardwearing material. This system has been designed and is sold exclusively under the Rufflette brand.

Chic in appearance there is nothing old fashioned about this curtain system. Stylish, straight and strong it will enhance any flat window in a contemporary home.

There is nothing off the shelf about the products, the poles can be purchased in the stock sizes available or for a small surcharge can be cut to the precise length required.

There is a selection of great finial designs to choose from

NB: As this is a natural product due to the natural characteristics of the material there will be variances on joined poles.

Features of Eco Chic

- Available in component form or as a cut to size product
- 4 lengths of pole (1.2/1.5/1.8 and 2.1m) in a beautiful, natural bamboo colour with an oiled finish

- Hidden bracket with magnetic fixing plate (made from steel)
- Specially developed metal C ring
- Concise selection of modern finials to match
- Great if you have an eco-friendly conscience
- Stylish point of sale counter top or wall fix display available to order (See inside back cover)
- 14 day turn round from receipt of order
- Suitable for non-connected straight runs up to 2.1m (or 4.2m when joined using a centre bracket) third bracket recommended on 1.8 and 2.1m lengths
- Additional packs of rings available for a surcharge
- Recommended for use with a curtain draw rod

Important note:

Before ordering Eco Chic, please ensure you have at least 40cm clearance each side of the window recess to allow for installation and good visual appearance.

We recommend positioning the bracket centres 15cm to the left /right hand side of the window recess and a minimum of 10cm up from the window recess. This allows a suitable curtain position and overlap to prevent light penetrating the room at the top and edges of the curtains. To calculate the correct pole length, please measure the window width and add 30cm to this figure. (15cm per side) The finial lengths vary from 3cm to 16cm including the connecting sleeve.

ECO CHIC CONNECT FINIAL AND POLE SHOWN WITH ERIN STRAW GOLD FABRIC

Visions

STEEL POLE RANGES

Visions 35,28 and 19mm steel pole ranges have been designed by and are sold exclusively under the Rufflette brand.

The poles can be purchased in the stock sizes available or for a small surcharge can be cut to the precise length required, you can create a mix and match look if you prefer to create a contemporary statement at the window.

In addition, there is the option to choose either an economically priced standard style bracket or more modern round style bracket depending on your budget.

Features of Visions 19mm, 28mm and 35mm

- Available in component form or as a cut to size product
- 2 lengths of pole (1.2 and 1.8m)
- 3 colours of pole
- Wide selection of finials to choose from
- Option to mix and match colours to suit your tastes
- Great if you prefer a modern look and have light to medium weight curtains
- Stylish point of sale counter top display available to order
- 14 day turn round from receipt of order

- Suitable for straight runs up to 3.6m (when joined using a connector and middle support bracket)
- Rings have a plastic insert for smooth, almost silent operation which also prevents scratching to upper surface of the pole
- Additional packs of rings available for a surcharge
- 2 different bracket options – standard or round style (19/28mm only)
- Option to layer a secondary curtain by using the double bracket option that is available in 19 and 28mm sizes and styles*
- 28mm passing ring and bracket in Matt Nickel for use with the angle joint to create a bay window solution
- Can be used with the decorative magnet accessories as found on page 136. A converter bracket is also available for the standard bracket option for 19 and 28mm where a greater amount of projection is required from the bracket when using magnet decorations
- End ring stop is available for 19mm pole when using end cap option

*not currently available in 35mm

“MADE FROM AN
FSC CERTIFIED
SUSTAINABLE SOURCE”

Grandeur 48MM WOOD POLE RANGE

Grandeur poles are made from wood from an FSC certified sustainable source and sold exclusively under the Rufflette brand. The finials are made from either resin or wood, dependant on the design.

There is nothing off the shelf about the finished products; they are made to the precise length with the no-extra cost option of creating a mix and match look if you prefer to create a statement at the window.

In addition, there is the option to upgrade to a cup style bracket for a small surcharge if space above the window recess is at a premium.

Features of Grandeur

- Fully custom made product
- Trade customers can purchase all products in component form
- Six colours of pole (new colour - blackened walnut)
- Selection of finials to match

- Option to mix and match colours to suit your tastes
- Great if you prefer a classical look, have larger windows and heavier weight curtains
- Complements Impressions tiebacks
- Poles are made from New Zealand pine from FSC certified sustainable forests
- Counter top or window point of sale displays available
- 14 day turn round from receipt of order
- Suitable for straight runs up to 3.6m (when joined and using a middle support bracket)
- Matching curtain hold backs available (except new colour)
- Additional packs of rings available for a surcharge
- Two different bracket options – standard or cup style (for dimensions see diagrams on page 57)
- Option to layer a rod pocket voile behind the main curtain when using a standard bracket (use a 13mm matt nickel rod available in 3 fixed sizes)

Grandeur

Grandeur products are sold as part of a custom made set. This includes a cut to size pole length, pair of standard brackets (plus centre bracket where applicable) pair of finials and rings at a ratio of 1 per 10cm of pole. Additional rings can be purchased separately (in packs of 6) as can holdbacks (in pairs).
