How to add Eve Motionblinds motors with Matter and Thread to your smart home platform?

Once you have all the necessities, chosen and set up a smart home platform, installed the right Thread border router, activated the Eve Motionblinds motor, and set end positions, you can add Eve Motionblinds to your smart home.
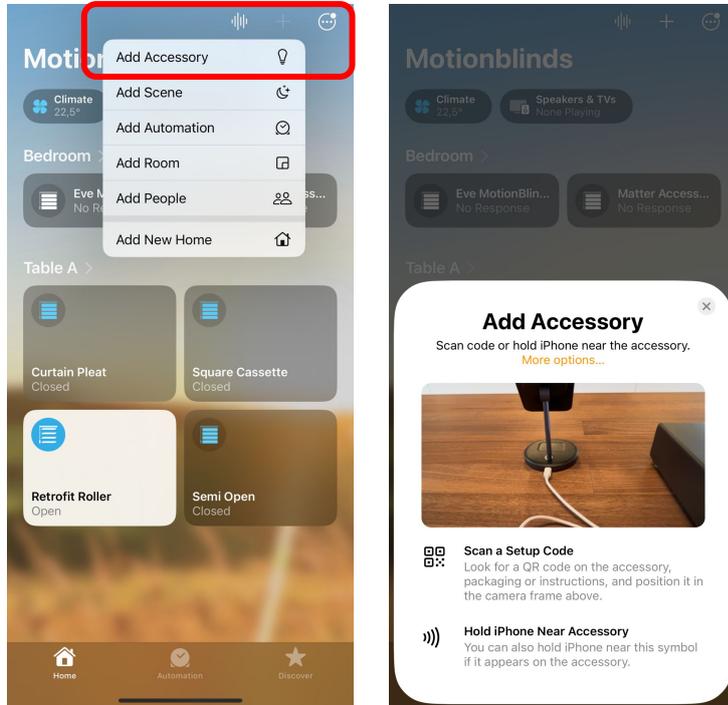

Below you will learn how this works with:
+ Apple Home
+ Google Home
+ Amazon Alexa
+ Samsung SmartThings

For more information, please check out support and FAQs from your smart home platform.

Motionblinds

Apple Home
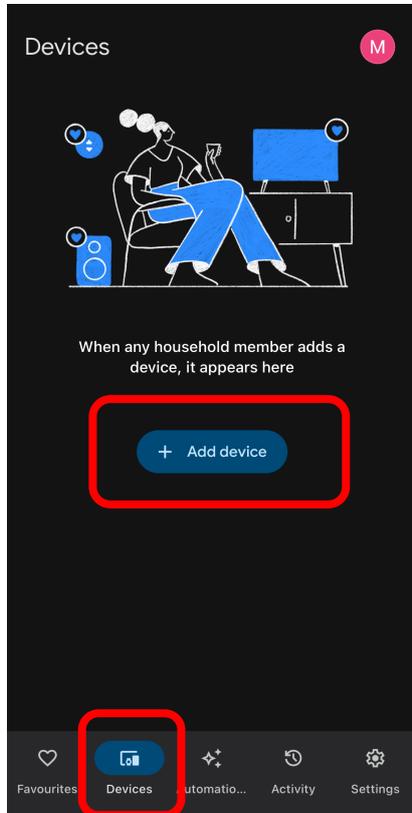

How to add Eve Motionblinds to Apple Home:

Open your home. Tap the + sign in the upper right corner of your screen and choose Add Accessory.
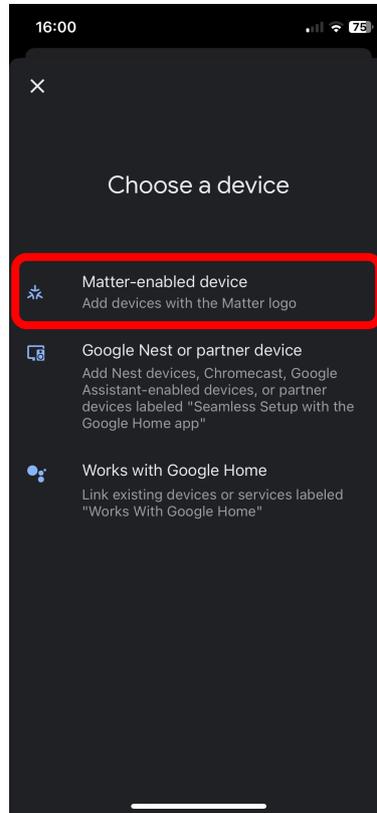

Scan the Matter setup code of your Eve Motionblinds motor.

IVI Motionblinds

Google Home

How to add Eve Motionblinds to Google Home:

Open your home. Go to Devices and tap Add device.

Choose Matter-enabled device.

Scan the Matter setup code of your Eve Motionblinds motor.
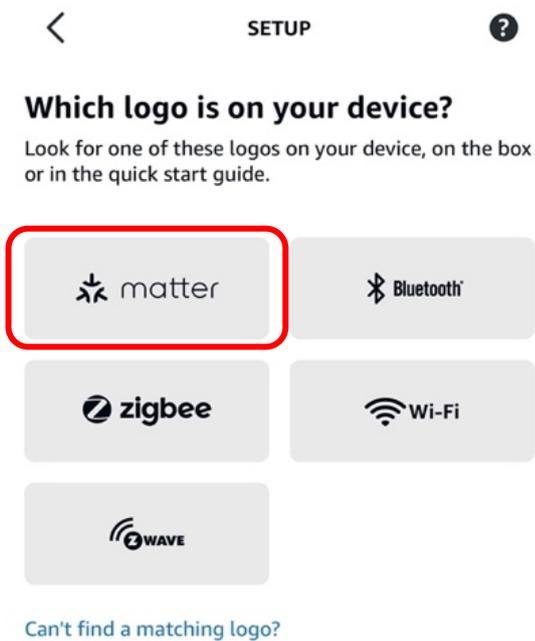

Motionblinds

Amazon Alexa

How to add Eve Motionblinds to Amazon Alexa:

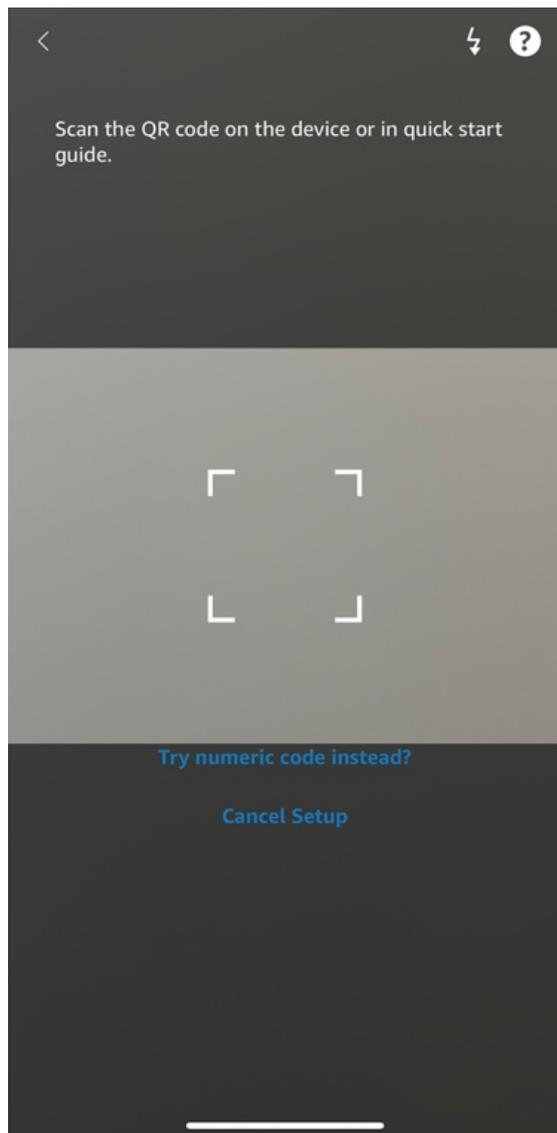

Open your home. Go to Devices and tap the + sign in the upper right corner of your screen. Choose Add Device.
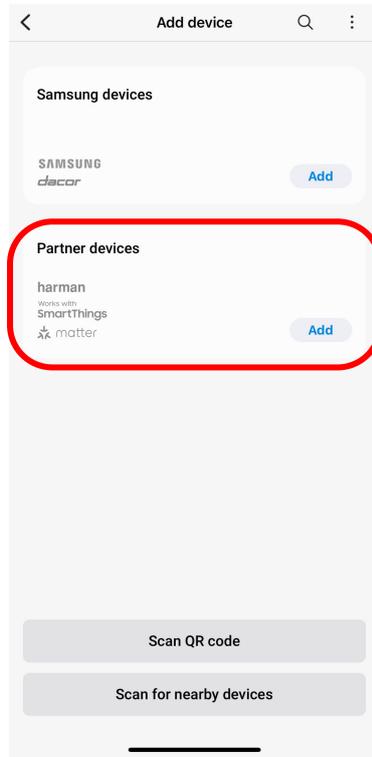

Select Other.

Which logo is on your device?

Look for one of these logos on your device, on the box or in the quick start guide.

matter

Bluetooth

zigbee

Wi-Fi

ZWAVE

Can't find a matching logo?

Scan the QR code on the device or in quick start guide.

Try numeric code instead?

Cancel Setup

Choose Matter.

Confirm when being asked if the device has a Matter logo. Then scan the Matter setup code of your Eve Motionblinds motor.

Motionblinds

Samsung SmartThings

How to add Eve Motionblinds to Samsung SmartThings:

Open your home. Go to Devices and tap the + sign in the upper right corner of your screen. Choose Add Device.

Choose Partner devices and select Matter.

Scan the Matter setup code of your Eve Motionblinds motor.
